

I am writing this email in support of the Emergency Vehicle Signaling System technology that is currently before your body for consideration in RM10836. As a 17 year member of the fire & emergency services, there is no question that this technology will help save the lives of countless innocent people involved in accidents involving the response of emergency vehicles. I hope that you will give support to this technology and approve its use in a timely manner to make traveling on our roadways safer for everyone.

Thank you for your consideration in this important safety issue.

David Gudinas  
Assistant Chief  
Burke Volunteer Fire & Rescue Department (Fairfax County, VA)
